

DELPHI

Federated Network of Platforms for Passenger and Freight Intermodality

Coordinated mobility for passengers & freight

DELPHI's Mission

Recognizing the complexity of stakeholder landscapes, fragmented transportation systems, and the need for secure data sharing, DELPHI is focused on strategically integrating passenger and freight transport into a single federated system. Towards this direction, the integration of sectors and harmonization of data will be achieved, while advanced methodologies will be applied aiming to transform transportation systems for sustainability.

DELPHI's expected outcomes include: (i) delivery of an overall architectural design that enables secure data federation; (ii) incorporation of interfaces and security mechanisms within a Data Spaces-driven approach; and (iii) implementation of innovative governance and regulatory schemes covering stakeholder and ecosystem specifications, information flows, data sovereignty principles, and regulatory artifacts.

Project facts

Full Title:
Federated Network of Platforms for
Passenger and Freight Intermodality
Project ID: 101104263
Funded under: Horizon Europe
Funding scheme: RIA – Research and
Innovation Action
Duration: 36 months, 01 July 2023 – 30 June
2026
Total cost: EUR 4,999,561.50
EU contribution: EUR 4,999,561.50
Topic: **HORIZON-CL5-2022-D6-02-05**
Coordinated by:
Institute of Communication & Computer
Systems (ICCS)
Communication Manager:
SEABility Ltd. (SEAB)

DELPHI's objectives

DELPHI consortium

**Funded by
the European Union**

DELPHI project has received funding under grant agreement No 101104263. It is funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Climate, Infrastructure and Environment Executive Agency (CINEA). Neither the European Union nor the granting authority can be held responsible for them.
