How familiar are you with the CBoXX container concept?

009

I've seen a demo or presentation

I've heard of it, but not much detail

This is my first time learning about it

What words come to mind when you think of
“CBoXX”?

007

Extra large Container box

Rock it...

Innovation on rail

XX sea box?

BIG BOXX

innovative

New wagon innovation

How would you rate your company's experience with intermodal freight solutions?

007

Extensive – we regularly use intermodal (rail, road, waterway)

Moderate – we use intermodal occasionally

Minimal – we rely mainly on unimodal transport

None – we are just exploring it

What are the biggest benefits or challenges you've experienced in intermodal operations?

008

- Price and time still beats sustainability
- Benefit: Over long distance, cheaper than road
- It is less fast than trucking service.
It can be expensive and complicated in operations
- Lack of knowledge about rail and waterway transport
- Modal Shift Flexible
- interoperability
- Wide availability
- Compatibility, Borders, Interoperability
- LOW Quality
